

Las Vegas Magician Christian Augustine returns with

MAGIC OF MATH

Back by popular demand, Las Vegas magician Christian Augustine presents Math Magic. Christian's goal is to show your students that there is much more to math than they originally thought. In his show all the magic your students will see pertains to math. Christian will even give your students some clues as to how math makes some of the tricks work.

- Magic tricks will include:
- Human Calculator
 - Invisible Deck
 - There's Always 10
 - Floating Table
 - The Power of 9
 - And many more

"Christian had a great commanding voice that kept all of the student's attention and his tricks were wonderful. The students truly enjoyed it and will remember this program!"
— Raquel Thomas, Teacher, Overland Park, KS

"All of the students were discussing the illusions and how they thought they were done as they returned to class. It was a treat to see them surprised, awed, and intrigued."
— Christine Hatcher, Principal, Fayetteville, NC

"From start to finish an outstanding presentation. The presenter was professional and made a sometimes dry subject like math entertaining and educational."
— Nancy Stone, Programs, Pasadena, CA
