

Animal Tales

“This was the assembly of my kiddo’s dreams! We had just finished a unit on Charlotte’s Web and Khoreen (the presenter) did an incredible job of literally bringing the concepts to life! Please let us know when we can do it again.”—Librarian, Las Vegas, NV

“Bringing this show into my school was one of the most popular decisions I have made in a while. Students and staff alike went out of their way to thank me and tell me how much they loved the show. I have to say that I even enjoyed the surprise on the students faces as each new story and animal was revealed. Thanks.”—Principal, Winston-Salem, NC

Animal Tales is a live animal educational program that brings your students’ favorite animal characters from their most beloved books to life with live animals!

This awesome program will inspire students’ creativity, encourage more reading, widen their consciousness, nourish their imagination, make them more compassionate and help them achieve their dreams. As Dr. Seuss said, “The more you read, the more things you will know. The more you learn, the more places you will go.”

The presenter will take the students on a fun and exciting reading journey by exploring books such as *Warriors*, *Pete the Cat* and *The Little Critter Series*. The assembly will also include classics like, 2018 John Newberry Medal winner *Hello Universe*, *Peter Rabbit*, *Charlotte’s Web* and *The Jungle Book*. The details of the lesson programming and the selected books will vary and be tailored to be grade appropriate. Every performance will showcase several live animal ambassadors and relate them to the characters in the books, while the presenter teaches your students about animal-human relationships, empathy and compassion, natural history and geography.
