JHLMG artists, Cutright and Ike Hill, are returning to the Bureau of Lectures line up with what’s being called the best assembly ever! The energy, excitement and production of the show captivates and engages both students and teachers. The life lessons the audience learns around respect, optimism and perseverance can be applied to their everyday lives.

Cutright and Ike Hill provide an interactive assembly program for grades K-12 by way of a full production rap concert that connects with youth through positive music while delivering an encouraging message.

Cutright and Ike are more than happy to tailor their show to a specific topic your school would like highlighted and promise to deliver an entertaining and energetic performance using humor, crowd engagement and hip-hop to help youth realize that anything is possible when you have the right perspective.
